Safety Instruction

Please read the following before using the Creative Products:

- Use a mains plug that is appropriate for your country or region.
- To be completely disconnected from the power input, the mains plug has to be disconnected /detached from the mains.
- Disconnect the mains plug when the device is expected to be unused for several days.

Additional guidelines for wireless devices

- The short wave radio frequency signals of a wireless device may impair the operation of other electronic and medical devices
- Switch off the device where it is prohibited. Do not use the device in medical facilities, aircraft, refueling points, close to automatic doors, automatic fire alarms or other automatically controlled devices
- Keep this device at least 20 cm from pacemakers and other medical devices. Radio waves may impair the operation of pacemakers and other medical devices

Technical Specifications

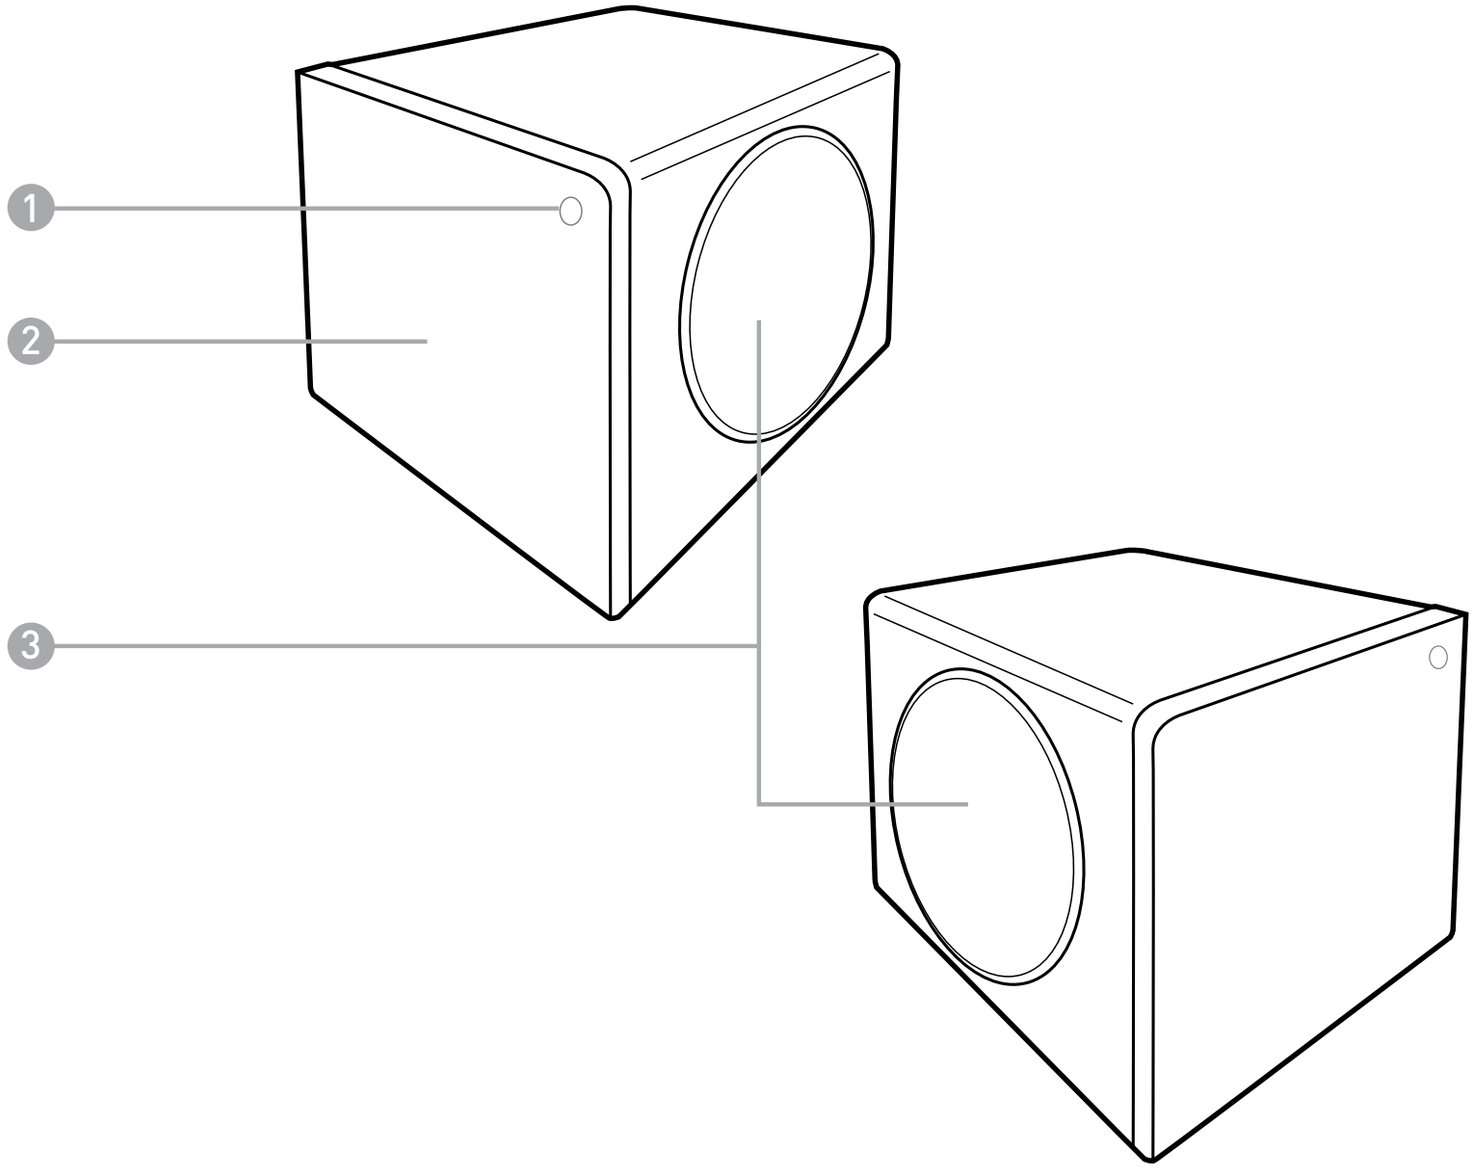
- Input Rating: 100-240V~ 50/60Hz 300mA
- Operating Frequency : 5725 – 5850 MHz
- Supported Speaker models : ZiiSound D5x , ZiiSound D3x
- Operating Range: Up to 30 meters (Measured in open space. Walls and structures may affect range of device.)
- Device Operating Temperature : 0ºC to 50ºC

Note: Compliance markings are located at the back of this product.

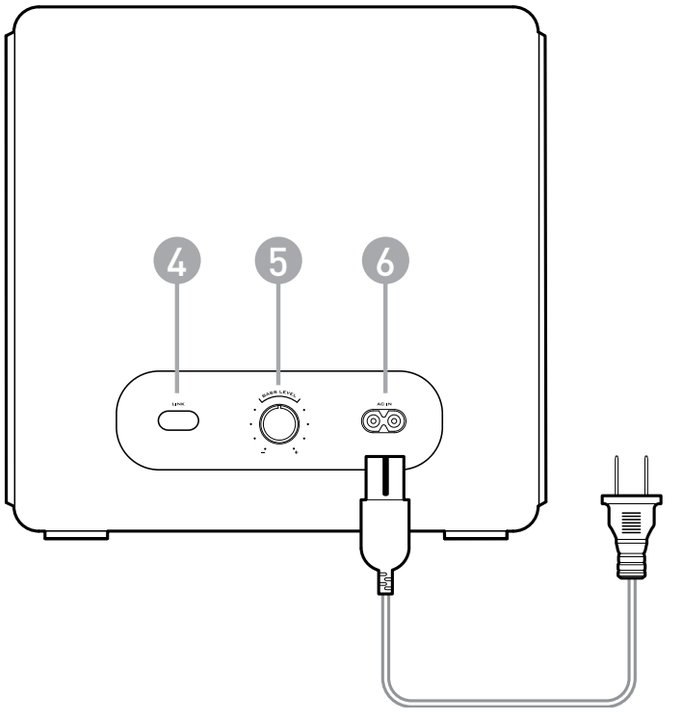
Compatibility Disclaimer

- Every electronic device is subjected to radio frequency (RF) interference from external sources. These include the connection between linked ZiiSound D5x, D3x and wireless subwoofer.
- Creative will not be liable for any loss of data or leakage resulting from the use of these devices.

1 Product Overview / Connectivity Diagram



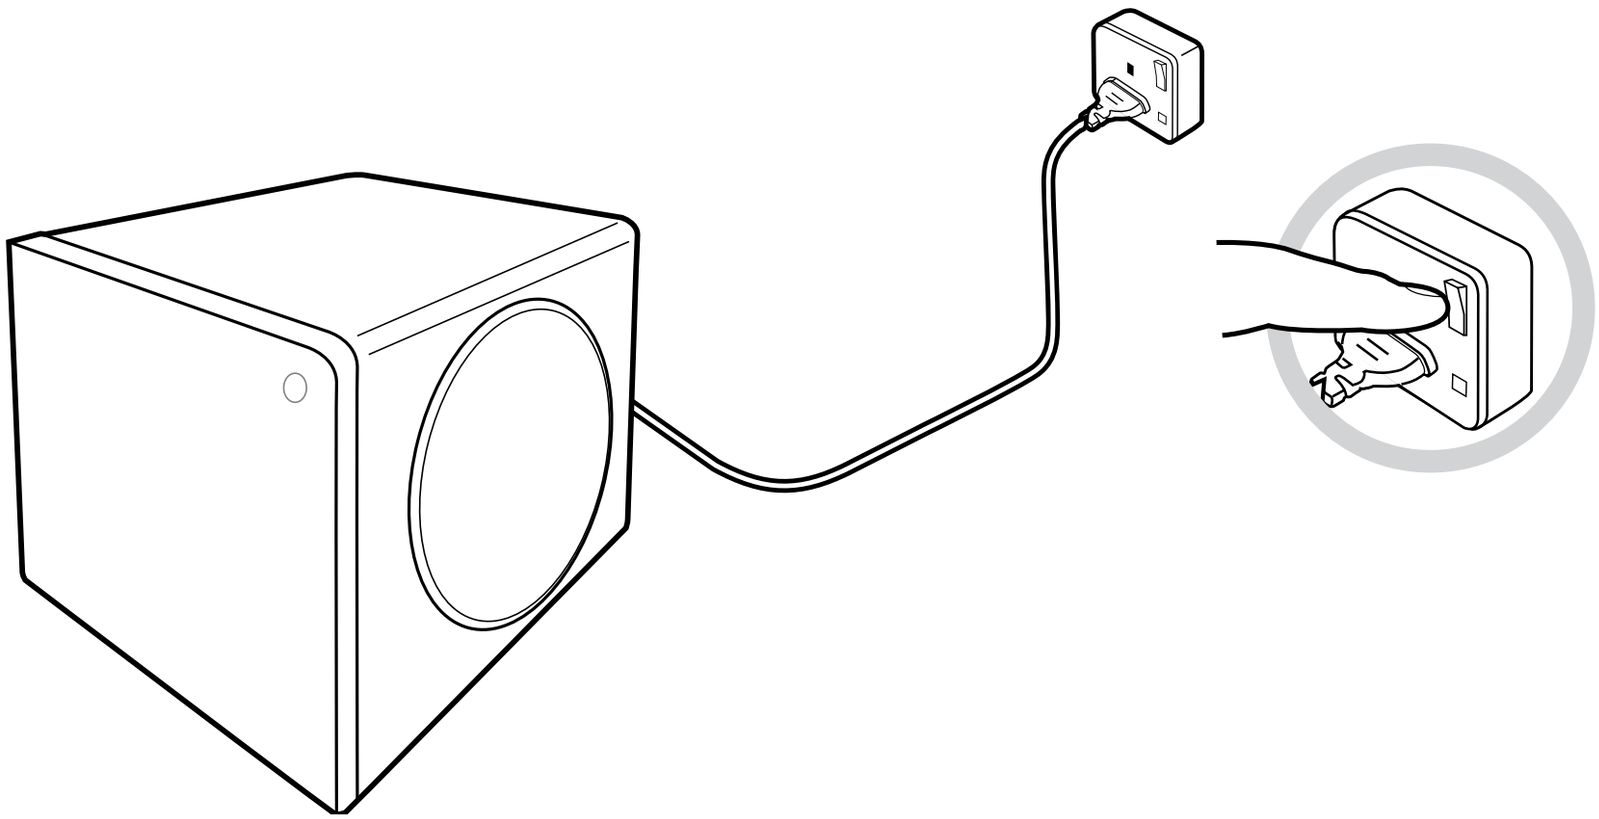
1	ZiiSound DSx LED Status Indicator	LED lights up to indicate active wireless link status
2	SLAM™ Master driver	Do not poke objects into these areas
3	SLAM™ Pressure drivers	Do not poke objects into these areas



4	LINK Button	For various actions to LINK and connect to ZiiSoundD5x or D3x
5	Bass Level Control	To Increase or decrease the bass level
6	AC IN	Attach supplied AC cord into AC IN, then into mains

LED Status	Subwoofer Status
OFF	Standby (Mains Powered ON, not connected to any speaker)
	LINK discoverable mode
LED blinks twice and goes off	Restored to Factory default setting
LED stays ON	Linked to speaker

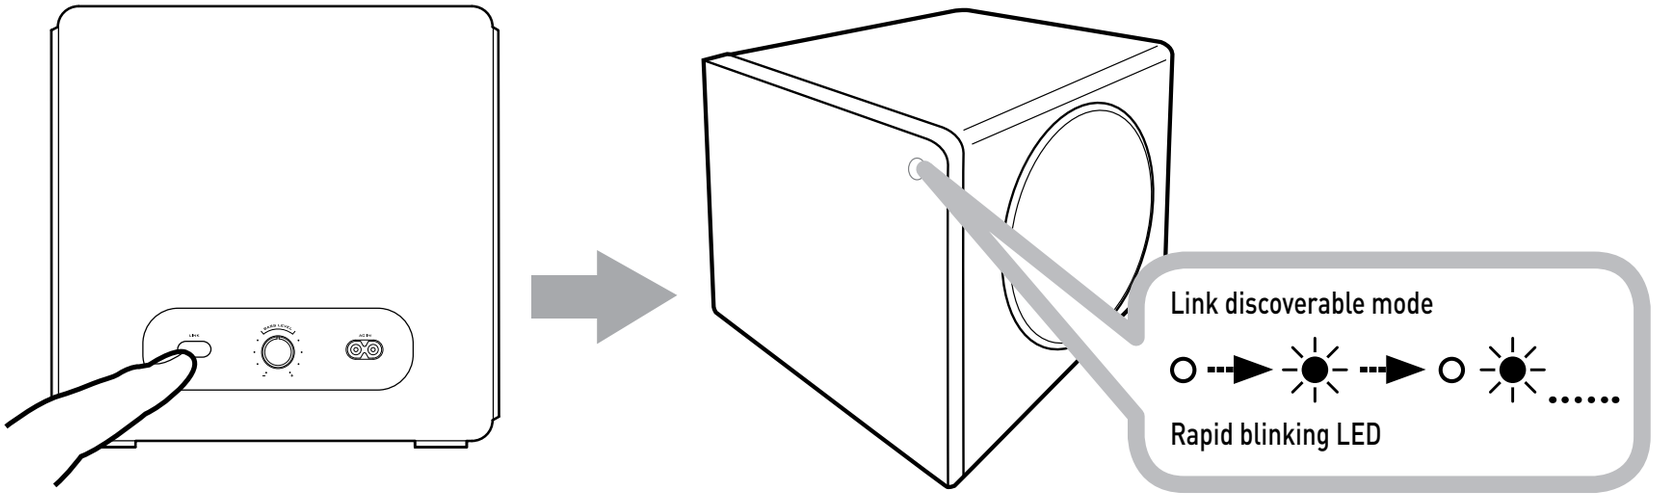
2 To Power ON the ZiiSound DSx



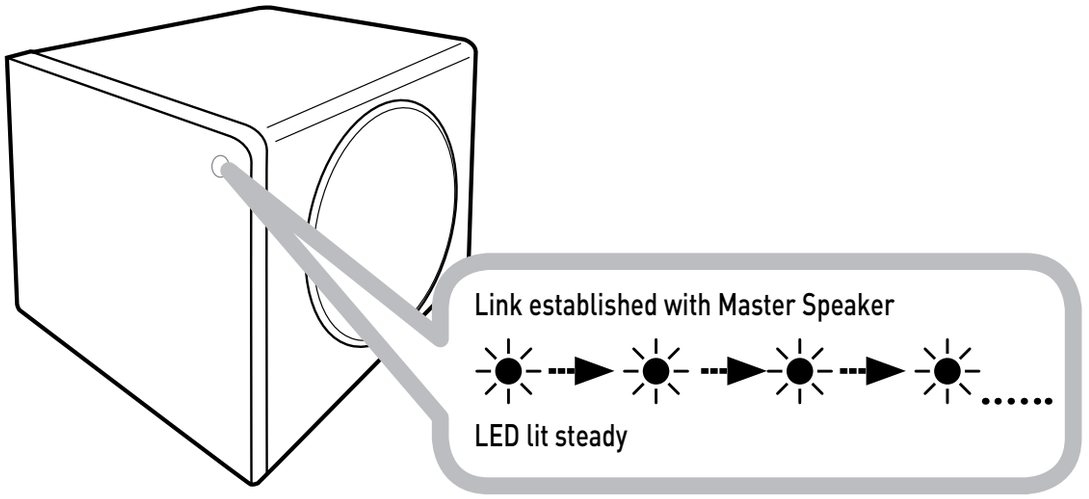
Plug in the AC cord into the AC IN and switch on the mains. The ZiiSound DSx is powered ON and in standby mode.

3 To link up with the ZiiSound D5x or D3x

To link to the ZiiSound D5x or D3x master speaker unit, the ZiiSound DSx needs to be in LINK Discoverable mode for the master speaker unit to establish a link to ZiiSound DSx. To activate LINK discoverable mode, follow the instructions below.



A With the Subwoofer mains powered ON, Press and hold the Link button for 4 seconds and release when the LED blinks once. The Subwoofer is now ready to recieve connection from a master speaker unit.

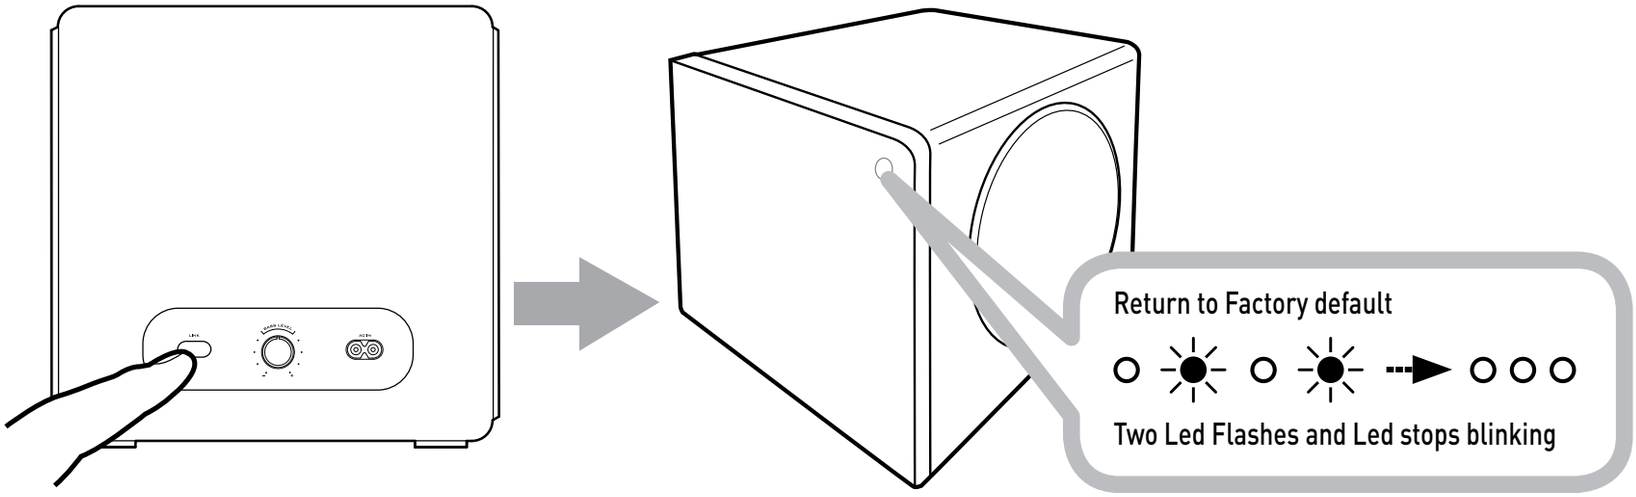


B When the Wireless Subwoofer is successfully linked up, the Led Status indicator will be lit steady.

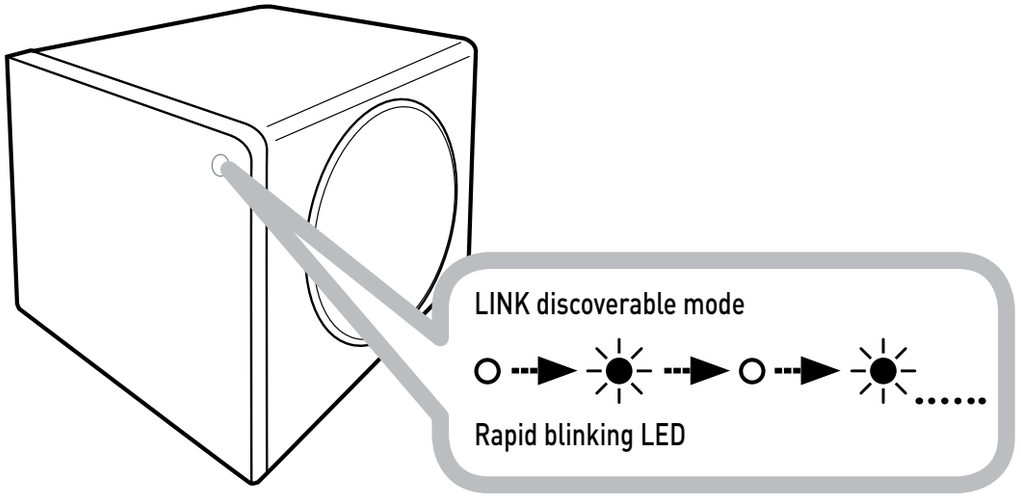
Note: At any one time, the ZiiSound DSx can only remember one device in its memory bank.

4 To de-link the ZiiSound DSx from any master speaker unit

To de-link the ZiiSound DSx from any master speaker unit for linking to another master speaker unit, perform the following instructions below.



A With the Subwoofer is powered ON, press and hold the Link button for 10 Seconds until 2 flashes of LED is seen and the LED stops blinking. Subwoofer is cleared of memory and in standby mode.



B Press and hold the Link button for 4 seconds and release when the LED blinks once. The Sub-woofer is now ready to recieve connection from a master speaker unit.

5 Return to factory default setting / Clear Link system

Follow these steps to return to factory setting to clear link system memory when a change in speaker configuration is required (For example, linking additional D5x or DSx)

Action	LED	Status
Press and hold the LINK button for 10 seconds when the subwoofer is powered ON	Two Led Flashes and Led stops blinking	Wireless subwoofer is cleared of link system memory and in standby mode. Ready for next user action

6 Frequently Asked Questions (FAQ)

Perform the following trouble-shooting steps before sending it for servicing.
For more information, please refer to support.creative.com

The ZiiSound DSx cannot be Powered ON. What should I do?

- Make sure that the power cords are firmly connected to the unit and that the power outlet is turned on.
- Press the LINK Button at the rear of the Subwoofer. The LED status indicator should blink. This indicates that the Subwoofer is powered ON and in standby.

There's no wireless link between the ZiiSound DSx and ZiiSound D5x or D3x. What should I do?

- Check to see if there is a broken link in the ecosystem. A broken link in the ecosystem will stop the link from functioning until the link is restored.
- Perform Steps 3. To link up with the ZiiSound D5x or D3x to put the wireless Subwoofer into LINK Discoverable mode and refer to the ZiiSound D5x or D3x user manual for further linking instructions. Upon successful link, the LED status indicator on the DSx will be lit up steady.

I am having difficulty in linking up the ZiiSound DSx with the ZiiSound D5x or D3x.

- Ensure that you have the master speaker defined
- Make sure that your Master speaker LINK discoverable mode is enabled
- Position them within 1 meter or closer to each other if you experience linking difficulties
- Ensure that both, your ZiiSound DSx and your ZiiSound D5x or D3x are not connected to any other devices
- Should the problem persist, return the ZiiSound DSx, D5x or D3x to factory default setting by referring to section 5, Reset to factory setting

What's the optimal operating distance between ZiiSound D5x or D3x with the ZiiSound DSx?

- The optimal operating distance is within 30 meters. They work best when there are no obstructions (e.g. walls, large metal structures or other electronic devices). If they are too far apart, you may hear some cracking sounds

My ZiiSound DSx does not go into power standby mode.

- The ZiiSound DSx can only go into standby mode when the master speaker unit is in standby mode or when it is not linked with any master speaker unit. Control of the ZiiSound DSx is given to the master speaker when both units are linked up.

European Compliance
This product conforms to the following:
EMC Directive 2004/108/EC.
Mains operated products for the European market comply with Low Voltage Directive 2006/95/EC and Commission Regulation(s) Implementing Directive (2005/32/EC).
Communication /RF wireless products for the European market comply with R&TTE Directive 1999/5/EC.

CAUTION:
To comply with the Europe CE requirement, this device must be installed with CE certified computer equipment which meet with Class B limits.
All cables used to connect this device must be shielded, grounded and no longer than 3m in length.
Operation with non-certified computers or incorrect cables may results in interference to other devices or undesired effects to the product.

MODIFICATION:
Any changes or modifications not expressly approved by Creative Technology Limited or one of its affiliated companies could void the user's warranty and guarantee rights.
